WORK EXPERIENCE

Frontend Developer/Technical Writer

Aviyel

📅 March 2022 - current

- Worked on live-chat widgets for websites, with customizable features, delivering up to 10 times faster response time to customers.
- Won three badges for frontend development, open source contribution, content creation.
- Created technical blog documentations on Chatwoot SDKs, Slicknode GraphQL backend, and several others with over 1000 reads.

React Developer

100MS

📅 November 2021 - April 2022

📍 Remote

- Designed and developed video/audio conferencing web apps using JavaScript and React.js to illustrate and increase third-party integration of the 100ms SDK by 10%.
- Created technical how-to documentation centred around the 100ms APIs and SDKs, with over 2000 views, increasing trials and subscriptions. This shortened learning time by an average of 12 days.

Mobile Web Specialist

Andela

📅 June 2020 - December 2020

📍 Remote

- Specialized in PWA development, developing offline-first PWAs leading to 10 times faster user experience.
- Won the "Skill Badge" award, for excelling in the Mobile Web Specialist IQ test with a 96% score on three assessments.

Frontend Developer Intern

Hotels.ng

📅 June 2020 - August 2020

📍 Remote

- Collaborated with different codenamed teams in building hotel website themes. This themes sold and generated a revenue of about \$100 per day for each team.
- Assisted and reviewed over 100+ pull requests from different team collaborations on different sprints.
- Learned agile work methodology, with short sprints and structured workflows.

PROJECTS

Video/Audio Conferencing Web App

- A VOIP app that allows users make a video/audio call with several participants and enterprise-like features.

Cryptocurrency Price and News Tracker

- Utilized Coinranking and Bing News APIs to give real-time cryptocurrency updates, news, basic information, and every coin's history.

Travel Companion

- Displays the nearest real-time restaurants, hotels and other attractions around you depending on your geographical location coordinates.

Open Source Works

- An active open source contributor to the NSI database, which defines all landmarks and features on the OpenStreet Map.
- Contributed to Chatwoot and Slicknode projects so far.
